

# Fall 2025

---

Milo Barrera-Ortiz

# Things I Did This Semester

- Every evening, I would eat my Ozie box on the ledge outside my room with this view

- In the mornings after class I would grab breakfast from Oliva's and call my mom and friends

- Go to La Jolla with friends and go biking

- I went to the casino with my friends at 2am and won \$250

- Take a weekend trip to visit Eugene, Oregon

- While in Oregon go on a hike that led to a waterfall

# Things I Wish To Not Experience Again

- After coming back from thanksgiving break, our room had water damage causing us to relocate rooms a week before finals week

# Things That Touched My Life In A Positive Way

- On November 1, 2025 the Dodgers winning the World Series

- I would play pool in Franks Lounge often with my roommates and also made new friends playing pool

# Semester Recap

- My first semester at USD was not what I expected, but I am grateful for the friends and memories I have made. It was a good first year and I hope every semester gets better

# Future

- For my next semesters I will make it a challenge to myself to make even more memories. Also, I would like to talk to my friends back at home more. And I would like to do better academically in future semesters.

Jobs report shows hiring slowdown in November  
The U.S. added 64,000 jobs in November, which marked a significant decline from 119,000 jobs added in September, the most recent month for which

# Conclusion

---

- In conclusion, this presentation is a time capsule of my fall semester of 2025. This year has definitely been a blessing to me. I was nervous coming into this school just because it's my first year of college and being away from home while doing school is hard. I'm proud of the way I handled it and how I've adapted to all the new changes in my life. I love all the new things I've experienced and the things I've yet to experience. There's many things I would keep the same and change for future semesters. I would mostly focus on my academic success and try to figure out my study habits and what works best for me early on. I'm excited to see what future semesters hold for me.
